

Choose the right antenna for your site/application

1. **SA011L2** - Patch antenna with self adhesive backing - our standard antenna that comes with most starter kits (2m cable, 2dbi gain, FME-F Connector)

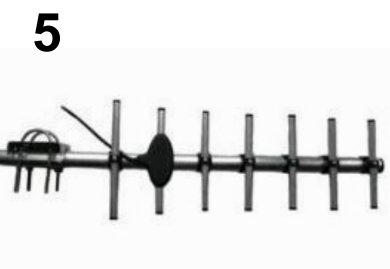

2. **SA011A2** - Stub antenna with magnetic base - for attaching to top of metal enclosures/cabinets (2m cable, 2dbi gain, FME-F Connector - total length 70mm)

3. **SA011D2** - Vandal-proof thru-hole antenna - for discrete mounting. Requires hole in cabinet for fixing/cable entry. (2m cable, 2dbi gain, FME-F Connector - total length 26mm, 52mm dia)

4. **SA011B2** - Wall mounted antenna with mounting bracket for external/internal application to improve reception. (10m cable, 2.2dbi gain, FME-F Connector - total length 241mm, 30mm dia)

5. **SA011Y2** - Pole mounted directional antenna with mounting clamp for external application to improve reception. (10m cable, 9dbi gain, FME-F Connector - total length 610mm, width 123mm)

5. **SA-EXT10**- 10m extension cable for use with above antennas - we recommend a maximum of 20m total antenna extension length. (FME-M to FME-F connectors)

Ordering

Type	Description	Part Number	Price (ex VAT)
Patch Antenna	Patch antenna with self adhesive backing - our standard antenna that comes with most starter kits (2m cable, 2dbi gain, FME-F Connector)	SA011L2	£10.00
Mag-Mount Antenna	Short stub antenna with magnetic base - for attaching to top of metal enclosures/cabinets (2m cable, 2dbi gain, FME-F Connector)	SA011A2	£20.00
Vandal-proof Antenna	Vandal-proof thru-hole antenna - for discrete mounting. Requires hole in cabinet for fixing/cable entry. (2m cable, 2dbi gain, FME-F Connector)	SA011D2	£28.00
Wall Mount Antenna	Wall mounted antenna with mounting bracket for external/internal application to improve reception. (10m cable, 2.2dbi gain, FME-F) Connector)	SA011B2	£50.00
Directional Antenna	Pole mounted directional antenna with mounting clamp for external application to improve reception. (10m ext cable, 9dbi gain, FME-F Connector)	SA011Y2	£75.00
Extension cable	10m extension cable for use with above antennas - we recommend a maximum of 20m total antenna extension length. (FME-M to FME-F connectors)	SAEXT10	£20.00
